

We Need Your Help!

Phase Two of the renovation is the construction of the terrace and meeting/reception rooms. Help us be able to complete this project!

The work has been completed on Phase One of the building project and we are going forward with Phase Two, confident of the generosity and support of the residents and friends of Rock County.

Through the generosity of the K.A.H.R. Foundation, the jail building portion of the renovation is completed and the terrace is started. With the cost of specialized material needs, we need your help to complete the terrace to a fully functional addition!
